SUMMARY

Passionate MERN Stack Developer with strong fundamentals in building responsive web applications using **React.js, Node.js, Express.js, and MongoDB**. Skilled in writing clean, maintainable code and developing user-friendly interfaces. Hands-on experience through academic and personal projects, with a strong eagerness to learn, collaborate in team environments, and contribute effectively to real-world software solutions.

PROJECTS

Code Tutorial
2024

- **Description:** Designed and developed a dynamic web platform that centralizes coding tutorials, enabling learners to access high-quality coaching resources in one place.
- **Key Features:** Interactive UI, responsive design, and seamless integration of tutorials with user-friendly navigation along with all CRUD operation.
- **Tech Stack:** HTML5, CSS3, JavaScript, Bootstrap 5.3, jQuery, jQuery Cookie, Express , CORS, MongoDB.
- **Impact:** Enhanced accessibility to coding education by providing a single hub for structured learning, improving user engagement and retention.

To-Do-App
2025

- **Description:** Built a productivity-focused to-do app that empowers users to efficiently manage tasks with real-time updates and intuitive controls.
- **Key Features:** Task creation, editing, deletion, and persistence with database integration; responsive design for cross-device usability along with all CRUD operation.
- **Tech Stack:** HTML5, CSS3, JavaScript, Bootstrap 5.3, jQuery, Express , CORS, MongoDB.
- **Impact:** Streamlined task management, boosting user productivity and organization through a clean, interactive interface.

Video Library
2025

- **Description:** Developed a scalable video library platform that allows users to explore, categorize, and manage video content seamlessly.
- **Key Features:** Video categorization, search functionality, playlist management, and responsive UI for optimal viewing experience along with all CRUD operation.
- **Tech Stack:** HTML5, CSS3, React JS ,CORS , bootstrap , bootstrap-icons , formic , yup ,redux toolkit , express , react-cookie , typescript , axios , MongoDB.
- **Impact:** Delivered an engaging multimedia experience by combining efficient content management with modern design principles, enhancing user satisfaction.

EDUCATION

Master of Computer Application
IGIT , Sarang
Dhenkanal Odisha | 2022 – 2024
CGPA : 9.39

COURSE

Full Stack UI Web with React – 2025

Oracle Training – 2025

SKILLS

- **Programming Language** : JavaScript (ES6+), Typescript
- **Frontend Technologies** : HTML5 , CSS3 , JavaScript , React.js , Bootstrap, jQuery
- **Styling & CSS Frameworks** : Bootstrap , Tailwind CSS , Sass , Less
- **Backend Technologies** : Node.js , Express.js , RESTful APIs
- **UI & Third-Party Libraries** : Material UI , Redux , Redux Toolkit , Formik , Yup ,dayjs
- **Database** : MongoDB , MySql , Oracle
- **Version Control & Tools** : Git , GitHub , Postman , VS Code
- **Web Technologies & Protocols** : HTTP / HTTPS , REST Architecture , JSON
- **Deployment (Basics)** : Netlify , Vercel
- **Operating Systems:**
  - Unix • Linux • Windows

STRENGTHS

- **Problem solving**
- **Teamwork**
- **Good Adaptability**
- **Strong Communication**
- **Social Service**
